EDUCATION

Cornell University

B.A. in Math and Computer Science

Relevant Coursework: Functional Programming, Abstract Algebra

Expected Graduation May 2028

Ithaca, NY

EXPERIENCE

Cornell Electric Vehicles

Telemetry Subteam Member

Sep 2025 – Present

Ithaca, NY

- Contributed to the development of autonomous, hyper-efficient electric vehicles on a 65+ member team
- Owned the migration to a containerized ROS2 stack over Starlink via Tailscale, enabling off-vehicle monitoring
- Built and maintained a dashboard with React + FastAPI, visualizing 10+ sensor streams for live diagnostics

Cornell

Associate

Jan 2026 – Present

Ithaca, NY

- Built
- Engineered

Company Inc.

Specialist

Aug 2024 – Jun 2025

Remote

- Redesigned
- Worked

University

Researcher

Jun 2024 – Sep 2024

City, NJ

- Modeled
- Built

PROJECTS

This Resume Template — resume-template-latex

- Made a resume template

Monte Carlo Raytracer in OCaml — ocaml-raytracer

- Created a physically-based renderer from scratch with ray scattering, depth-of-field effect, and ray intersection
- Implemented camera projection, a material system, motion blur, and BVH for efficient rendering

LEADERSHIP & ACTIVITIES

Club

Co-Founder

May 2020 – Present

Remote

- Founded
- Taught

Association

Leader

Feb 2021 – Present

City, NJ

- Supervised
- Conducted

AWARDS
